WORK EXPERIENCE

Admin & IT Operations Support (Contractual)

Innovation for Poverty Action Philippines

July 2026 to Sept 2026

- **Organized IT management** by maintaining accurate inventory, tracking deployments, and overseeing proper disposal for all corporate laptops and hardware peripherals.
- **Prepared and deployed end-user devices** (OS reinstallation, system formatting, software setup) while providing **direct Tier-1 technical support** to resolve ongoing staff issues.
- **Checked IT procurement and finance records**, organizing invoices, receipts, and compliance documents to report.
- **Communicated regularly with Senior Operations Manager and Operations Manager** to align IT operations, report status, and resolve key operational problems.

IT Operation Support (On-the Job Training)

Concentrix UP Technohub

Jan 2026 to Apr 2026

- **Delivered end-to-end technical support** across hardware, software applications, and network infrastructure to maintain high operational uptime.
- **Monitored and resolved IT support tickets**, consistently meeting SLAs (Service Level Agreement) through timely troubleshooting and accurate tickets.
- **Provided hands-on technical assistance** to call center agents, resolving system errors and reducing workstation downtime.

EDUCATION

Bachelor of Science in Information Technology

Universidad de Manila — Graduated: S.Y. 2025 – 2026

PROJECTS

Capstone Project – Smart Faculty Evaluation (Main Programmer & Project Lead):

Developed a mobile app using NLP-based sentiment analysis and Random Forest to evaluate faculty performance at Universidad de Manila.

Technopreneurship Project – Smart Locator Device (Sole Developer): Created a Bluetooth-based locator using ESP32, buzzer, and LED indicators; implemented scanning and alert features
